Discounted private skating lessons for figure, hockey, and recreational skaters.

How Does It Work?

Sharpen Your Skills discounted private skating lessons are for those skaters who are not currently involved in private lesson instruction of any kind. The program is designed for skaters who may want to try out private lessons, skaters needing assistance on a particular skill, skaters getting ready for class testing, skaters needing guidance about what to practice on their own, or skaters who just feel they need a little fine tuning. These lessons do not guarantee that a skater will pass any particular level or skill. This is meant to be a chance for some skaters to receive a little extra one-on-one attention. These lessons are only available for currently enrolled Niles IceLand Skate School Skaters including children, teens, or adults. Skaters seeking long term or weekly

private lessons or skaters who are not enrolled in the Niles IceLand Skate School should fill out a Private Lesson Request Form and return it to the Skating Director.

Niles IceLand reserves the right to change or cancel this program at any time.
